

Who else is ready to

MAKE A FORTUNE **on the healthy coffee revolution?**

Everyone knows healthy coffee is an explosive MLM product. But do you really have a grasp of the size of this market? Here are some quick facts:

- Coffee is the second most traded commodity next to oil.
- It is the second most consumed beverage next to water.
- Starbucks' stock rises every quarter with a \$55 billion market cap, and 17,003 stores in 55 different countries and growing.
- McDonald's, used to be all about Ronald McDonald and now it's about McCafe Coffee.
- Dunkin Donuts wants to double the amount of stores by opening 7,000 more stores to add to its 10,000 already open.
- It is estimated that 1.6 billion cups of coffee are consumed worldwide everyday

Why is the market for coffee growing so fast? Because coffee is a great tasting beverage, but it also contains caffeine. One of the few legal and accessible luxury commodities the world has to offer, coffee is something almost everyone can afford to enjoy daily.

Healthy Coffee Will Eventually Dwarf Healthy Energy Drink Market!

In the MLM arena, we know hundreds of millionaires have been made through functional energy drinks because that was the hot, sexy new market to be in. But let's face it; everyone knows that coffee will always outsell energy drinks. The simple fact is that healthy coffee is the next disruptive market within the MLM arena. Mark my words - Healthy coffee will make a bigger MLM impact than the energy drink craze could ever hope to achieve.

Energy drinks are all the rage in America, but did you know that it didn't start in America? In fact, it started in Thailand! Instant healthy coffee is now exploding in USA, but it also didn't start in America too. This explosive trend began to the southern neighbor of Thailand - the country is Malaysia. You ask Why Instant? First, many of the high grade herbal extracts and minerals we blend with our coffee are not 100% water soluble. Therefore, the expensive healthy ingredients would get trapped in the coffee filter and never make inside our bodies to optimize our healthy and vitality. Secondly, instant coffee has been relegated to the bottom rung because the American manufacturers of instant coffee simply don't want to use premium coffee beans.

Regardless if it is coffee or food, if you start with dirt cheap ingredients you end up with dirt cheap tasting

products. Elite Java Branding is engaging in the paradigm shift on instant coffee. Instead of starting with cheap beans, we start with an ultra premium bean to give you that fresh brewed gourmet taste. Our premium Sumatran coffee blends are shade-grown, dark roasted with ultra luxurious aromas. The coffee is grown on a sustainable, 5-generation plantation.

Healthy Coffee Is the Ultimate Addictive Auto-Ship!

A majority of people crave coffee in the morning. Seriously, you and I both know that regardless of what nutritional product you are selling, you have most likely forgotten to take at least one dose sometime in past and you didn't suffer from massive withdrawals. However if you drink coffee everyday and miss

even one daily cup in the morning, you know immediately that you just don't function as well until you get your caffeine fix.

If you look at the top 50 income earners in MLM arena for 2013, you will see that 4 out of the top 20 income earners are from Healthy

Show ME the MONEYYYYYY!

OK, I am about to get Jerry McGuire on you. I can tell you, I am currently working with many international MLM companies with monthly sales ranging for \$1.6 million to \$27 million a month in sales. I have been

make money by reading this? Here is your answer. I am only searching for two types of leaders. Either you own a MLM company and you want to bring healthy coffee into your array, or you are a network marketing leader with strong connections to MLM owners and you want to create the next breakthrough coffee brand

MLM coffee companies that are less than 6 years old! This is hard-core evidence that healthy coffee sells in MLM. You may be asking - How can this be? Remember, Coffee contains caffeine, a drug. We cannot morally sell alcohol or any other controlled substances through network marketing because who could sleep at night if we did that. The last morally and ethically addictive consumable that we can market and earn an outrageous profit in is coffee.

in alternative medicine and contract manufacturing for over 15 years now. Blah Blah Blah Blah Blah - Who cares about all the crap!!!

You are now screaming!! - Show ME the MONEYYYYYY!

You are probably yelling at me now like Cuba Gooding, Jr. Where can I sign up George? How am I going to

in the industry. Either way, let me be your secret edge to bring into fruition your great tasting breakthrough coffee.
